## WEATHER IN SERFAUS-FISS-LADIS

Your holiday is approaching swiftly and the anticipation is growing. The first question that comes to mind: How is the weather going to be in the Alps of Serfaus-Fiss-Ladis? All current weather data and daily trends, including forecast for the upcoming days, are available at a glance now!

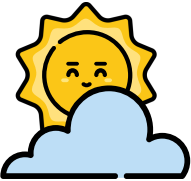

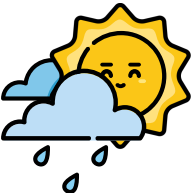

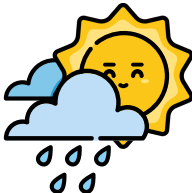

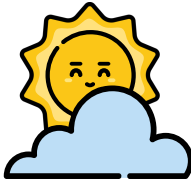

**today, Thursday 23.05.2019**

On Friday the high-pressure area named OPHELIA will decrease, however, with its dry and mild air it will further on determine the weather. The weekend will be more changeable, whereby the temperatures will only slightly decrease. The days will probably bring a mix of sun, clouds and local rain showers. The risk for rain showers will generally increase in the afternoon. Really bad weather is not expected. The further development throughout next week is still uncertain. As of today, a real high-pressure influence is probably not indicated. Hence, the changeable conditions will likely continue, and the current May weather will remain unchanged. Only moderately warm!
