

WEATHER & FORECAST

LATEST WEATHER IN SERFAUS-FISS-LADIS

Today, **Tuesday 27.06.**

A low-pressure area will determine the weather on Wednesday, humid-warm air masses will approach from the Mediterranean regions. Due to föhny tendencies, sunny spells are still expected. Showers and thunderstorms will approach in the second half of the day. A significant cold front will reach our country on Wednesday night. From Thursday on, changeable weather is expected behind this front, the temperatures will decrease distinctly at all altitudes. The inflow of cool Atlantic air masses and further rain showers will continue until about Saturday, subsequently a rapid increase in temperature is not expected. Improving conditions are forecast not before Sunday.

Wednesday 28.06.

Thursday 29.06.

Friday 30.06.
