HÖG ADVENTURE PARK. SERFAUS.

At Hög Adventure Park, the focus is on Alpine farming and forestry. In a giant milk churn, a fairytale is told about how Högsee lake came into being. There are many exciting play areas around Högsee lake. For our youngest guests, a shallow-water area has been developed. Water sports enthusiasts splash around in paddle boats or on rafts at the Högsee lake, or dare to spring into the water from the diving platform. The rafting course really shows who's in control of the situation. Many swimming jetties and a floating island invite you to relax and sunbathe. The Seealm Hög a-la-carte restaurant with a large lake-side terrace and a lounge area with service, is very enticing for relaxing. You'll be pleasantly surprised by the menu, with its trendy vegetarian and vegan cuisine, as well as fish specialities. Further highlights are the freshly smoked trout and the home-made bread.

GOLDEN MAN TRAIL. CHILDREN'S MINE. FISS.

Hiking giants, greedy gnomes and a golden man who was devoured by the Fiss Mountains are the characters of a fairy tale that takes us back to the time when the region was awash with legends. The hunt for the golden heart of the golden man begins when the young shepherd Fulgenz suddenly finds a piece of gold whilst rambling through the Fiss Mountains and tells the people in the valley about his discovery. From this time on, eerie laughter and cheers can be heard in the stillness of the night. The nasty gnomes are trying to drill through the mountain with hammers and pickaxes. Broken trees and debris avalanches threaten the inhabitants but their fear of the invisible gnomes is too great to prevent the catastrophe from happening. Will Fulgenz and his friends be able to save the golden man from the greedy gnomes?

11 steps to success - The 'Golden Man Trail' (expected to open on 20 July) Join Fulgenz and his friends on their mission to stop the greedy gnomes and defeat the nasty gnomes with knowledge about nature. 11 educational stages full of surprises await you on the experience trail. At the end, the golden man will be very grateful to you.

Children's Mine: After the golden man's breath had turned the gnomes to stone, the quarry was converted into a true playground paradise. A range of exciting play areas such as balancing apparatus, coordination structures, climbing frames, slides, swings, a maze and an adventure tunnel cave await mine workers of all ages.

WOLFSEE. FISS.

WHERE LYNXES, WOLVES AND BEARS SAY HELLO.

There's now a track for walking and relaxing that the whole family can enjoy around the Wolfsee, a reservoir near Fiss. The circuit winds harmoniously through the gentle, hilly landscape and is well worth a visit – if only to provide a feast for the eyes: deciduous and larch forests alternate between grasslands and fields of flowers. And on the banks of the lake, a top-class sensory experience for adventurous and curious kids. Here they can playfully learn about the behaviour and lifestyle of the lynx, wolf and bear. Along with climbing and balancing on the adventure steps, there are bears' dens to explore, a stream to play and splash in and much more. In the lynx territory, kids and adults sneak along the edge of the forest as if hunting and reach a play and information area in the shape of a lynx footprint.

Farther along, information boards with lots of fun facts about brown bears await you in the dens along with a sweeping view of the Wolfsee through the waterfall. The adventure steps that test your climbing and balancing skills end right at the dens. There is also a beehive-shaped climbing tower and a carousel with a honey pot because we just can't imagine 'Mr Petz' without honey.

Wo-Bä-Lu (Geocaching)

The Infobüro in Fiss is the starting point; here you can find an information board on everything to do with the cache. The exciting GPS treasure hunt pays "homage" to the animals which used to live here up on the high plateau, such as wolves, bears and lynx.

MOUNDS. FAMILY MUSIC FESTIVAL. SERFAUS. FISS. LADIS.

For many years, Serfaus-Fiss-Ladis has been an established top destination for families. Alongside countless alpine attractions for young and old, and excellent opportunities for hiking and wellbeing, the range for the whole family has been further enhanced since the summer of 2016 by a large family music festival. The festival makes children's eyes light up, makes the mountains tremble and sends the echoes far beyond the Tyrol region. In 2018 'Mounds' will be held for the third time from 15 until 20 July. The term 'Mounds' is taken from the two words mountains and sounds. Numerous workshops and concerts take place daily over the six days. Mounds is the music festival for the entire family!

The workshops are aimed at all children who take pleasure in music. They find out interesting things about rhythm, singing, composing, dancing, instruments and much more. Fun is always the first priority. And it really is great fun for little ones. Some workshops are also aimed at interested parents and grandparents, who learn a great deal with their children about singing and making music, and perhaps themselves might be keen to discover their own musical vein.

On the large central festival stage, the daily finale takes place with at least 2 concerts, sometimes with the participation of children from the workshops. Musical surprises on the festival site complement and enhance the 'music week'.

All information about the large family music festival can be found at www.mounds.at.

Sunday, 15 until Friday, 20 July 2018.
